Skills

Backend:

- Java
- Spring Boot

Frontend:

- JavaScript
- HTML
- CSS
- Bootstrap

Database: MySQL, MongoDB

Tools

Management API:

- Postman
- Swagger

Version Control:

- Git/Github

Others:

- Containerization: Docker
- Planning: Trello
- Review: Sonar qube

Profile

I am seeking an internship opportunity as a Backend Java Developer, where I can contribute to the team while learning from experienced professionals. I am highly motivated, quick to learn, and excited to tackle challenging problems in backend development.

Education

Bachelor of Computer Science

Oct 2022 — Present

Ho Chi Minh City University of Technology
of Vietnam National University, Ho Chi Minh City

Certificate

Scrum/Agile course received from AXON ACTIVE

Project

E-Commerce Website (B2C)

Project of Database Systems

Backend Developer (Backend Teamsize: 1)

15/11/2024 - 10/12/2024

Technologies: Spring Boot, Spring security, JWT, RESTful API, Spring data JPA
Spring mail, MySQL, PayOS (payment service), Cloudinary

My Contributions:

- RESTful API: Built the entire system with fast loading, high security, and easy maintenance.
- Authentication: Implemented Spring Security with JWT for secure user access control.
- Database: Integrated MySQL using Spring Data JPA and Hibernate.
- File Upload: Used Cloudinary for image and file storage.
- Payment: Integrated PayOS for real banking transactions.
- E-invoices: Generated and emailed e-invoices using Spring Email and PDF generator.
